

Opta collect up to 2000 events live during every match in the competitions listed below. For each event logged we add a series of descriptors, a pitch coordinate, a player and team reference plus a time-stamp. These variables enable us to provide hundreds of statistics on where events occurred, which players were involved and when they took place. The range of descriptors we add to every ball contact is the largest available. For example we

can separate which passes were through balls or headed flick ons from those which were long balls. We can tell which tackles were goal saving from those which regained possession in the final third, or even how many shots were left footed volleys or diving headers. Opta provide the most definitive data for on every ball contact in all of these competitions:

- FIFA World Cup
- FIFA World Cup Q'ing (Euro zone)
- FIFA Confederations Cup
- UEFA Euro Championship
- UEFA Euro Championship Q'ing
- Africa Cup of Nations
- UEFA Champions League
- UEFA Europa League (Group Stages)
